MD			
Elkton, 55 Thiokol Rd	NOC	propellant for torpedoes and retro motors for space launch; hypersonic missiles (design through manufacturing);	space launch; scientific exploration of the oceans; materials for high-speed rail and trains;
Middle River, 701 Wilson Point Rd #4	NOC	repair of special mission aircraft (e.g., RC-12X Guardrail, E-11A BACN); ISR sensor installaton; aircraft air worthiness certification;	communication and IT; sensors for aircraft conducting search and rescue, disaster prep/relief;
		power/control systems for ships (circuit card assemblies, cable assemblies and wire harnesses, cabinet assemblies); aircraft launch & recovery	power/control systems for hospital ships and ships used in disaster prep/relief, search and rescue, maritime trade, and refugee aid;
Sykesville, 7301 Sykesville Rd	NOC	systems; automatic voltage regulator for turbine generators on Nimitz-class aircraft carrier	power/control systems for public transit; regulators for energy generation and storage;
			F=====================================
		software design and systems engineering on MK 41 VLS electronics and launch control system; some F-35 software and programming; RF components	
Baltimore, 2323 Eastern Blvd (closing soon)	LMT RMS	for missiles and space:	software design, systems engineering, and RF components for space launch and public transit
	NOC	microelectronics: semiconductor foundry:	microelectronics: semiconductor foundry:
Enterior reignes, 1212 Winterson No.	1100	radar for aircraft (e.g., F-35); F-35 avionics; MQ-4C drone's Multi-Function Active Sensor radar signal processor; other buildings include 800	carbon nanotubes; avionics and radar for aerostat and aircraft (disaster prep/relief, search and rescue, refugee/IDP aid, firefighting); materials
Linthicum (many facilities, business district N of BWI)	NOC	International Dr and 1304 Concourse Dr	for infrastructure fortification:
	NOC Mission Systems	some G/ATOR work; vehicle intercom systems; air traffic control voice comms;	radar: communications
Elkilage, 7040 Hoy Hill Di	INOC IVIISSION SYSTEMS	some dy Arton work, verice intercon systems, an transcrotted voice commis,	radar, communications
			space exploration; satellite payloads for climate study, weather forecasting, resource allocation, and crop monitoring;
Baltimore, MD (BWI), 7323 Aviation Blvd	NOC Mission Systems	assembly and testing of space payloads and ground systems; thermal vacuum chamber and clean rooms on site	ongoing oyster population monitoring in Chesapeake Bay;
		patches)	
			communications; information technology for public infrastructure, healthcare, and resource allocation;
	LMT RMS	cyber and intel; software development; software engineering for data normalization and automation (DNA);	communications; DNA for worker leisure; cyber defense; IT for public infrastructure, healthcare, and resource allocation;
	RTX	IT for intel; computer programming;	communications; IT for public infrastructure, healthcare, and resource allocation; cyber defense;
	RTX	IT for intel; computer programming;	communications; IT for public infrastructure, healthcare, and resource allocation; cyber defense;
Annapolis Junction, 2691 Technology Dr	NOC Networked Information System Di	predicting cyber attacks; cyber mission platform sustainment; IT for intel;	communications; information technology for public infrastructure, healthcare, and resource allocation; cyber defense;
			international communications; data processing for infrastructure fortification and resource allocation; cyber defense; IT for public infrastructure
Annapolis Junction, 2721 Technology Dr #400	GD IT	IT for intel; data-processing; computer programming;	healthcare, and resource allocation;
Beltsville, 5010 Herzel Pl	NOC Space Systems	satellite subsystems (e.g., heat pipes for thermal control);	public infrastructure;
Millersville, 1121 Benfield Blvd	LHX "Chesapeake Sciences Corp."	electronics and components for military sonar; data acquisition systems, towed sensors, and telemetry components for anti-submarine warfare	geophysical exploration; deep sea exploration; monitoring and study of ocean currents and ecosystems;
California, 44425 Pecan Ct #100	Bell Boeing JPO	the Boeing portion of Bell-Boeing V-22 production	public infrastructure:
	GD IT	IT with a focus on aircraft and weapon systems that go on aircraft:	IT with a focus on public infrastructure, disaster prep/relief, and international scientific cooperation
Annapolis, 895 Oceanic Dr	NOC Undersea Systems	underwater systems, sensors, and vehicles	and the second s
Anniapolis, 000 Oceanic of	NOC Unuersea Systems		geophysical exploration; deep sea exploration; monitoring and study of ocean currents and ecosystems;
Annapolis, 2551 Riva Rd, Bldg 905	RTX Collins	datalink messaging and voice communications; flight safety services; aircraft hardware and air-to-ground comms for commercial airlines; avionics	datalink messaging and voice communications, flight safety services, and hardware and comms for international scientific cooperation and
Annapons, 2551 Kiva Ko, Bldg 905	N I A COIIIIIS	communications equipment (transponders, IFF, interrogators, crypto)	vehicles (land and air) involved in disaster prep/relief, search and rescue, refugee/IDP aid, firefighting, and infrastructure fortification;
VA			
Ashburn, 44611 Guilford Dr #125	LHX Advanced Systems & Technologies	tech for unmanned surface vehicles (perception tech, remote control system);	tech for ocean exploration/monitoring;
		operation and maintenance of the over-the-horizon radar for Fleet Surveillance Support Center in Chesapeake, VA; run/maintain the Launch and Test	radar; planetary defense against NEO; space launch for scientific exploration of Earth and the cosmos; software for drones used in search and
Sterling, 22260 Pacific Blvd and 23010 Ladbrook Dr	RTX Intel & Space	Range System at Vandenberg and Patrick SFBs; telemetry processing system at space launch sites and Pillar Point, CA; software for MQ-8 drone	rescue, disaster prep/relief, and refugee aid
Sterling, 45101 Warp Dr	NOC	for description, see: 2340 Dulles Comer Blvd, Hemdon, VA	for description, see: 2340 Dulles Corner Blvd, Herndon, VA
Chantilly, 14119 Sullyfield Cir	NOC	IT: hardware and software interconnection and interfacing:	communication and species connectivity
	GDIT	T.	climate study
chantiny, 19090 conference center bi	GDTI		Climate study
Centreville, 5860 Trinity Pkwy	LHX "Adaptive Methods"		deep sea exploration; sonar for ocean monitoring, maritime trade, hospital ships;
		undersea warfare; signal processing for anti-submarine warfare; sensors for UUV; sonar processing systems and displays;
